Insurance Information

All social health insurance

We have contracts with all social health insurance providers. Thus insured patients can take advantage of services, including house calls, by presenting the e-card, without incurring additional costs.

Please note that the social health insurance does not cover all services, therefore immunizations and various medical certificates are not included. Also certain medications (e.g. Tuscalman Suppositories) are not covered and certain remedies require approval from a chief physician.

Alternatively it is also possible to take advantage of our services privately and/or with additional insurance.

Private patients or patients with additional insurance

Patients can also be billed for our services and submit the bill to their private additional insurance for reimbursement; however this is not the case with the GKK. Thus these patients are not subject to the respective limitations and/or examinations from the social health insurance providers.
